KASA INDUSTRIES

101a E Industrial Park Dr
Manchester, NH 03109

603-626-1909

orders@jandksales.com

TERMS OF PAYMENT: 2% 10, Net 30

FREIGHT ALLOWANCE POLICY:

1. Complete shipment is to a single destination from Kasa Industries warehouse.
2. Freight Carrier to be selected by Kasa Industries.
3. \$1,500 USD net order value is met
4. No full freight allowed on factory direct orders

SPECIAL CONDITIONS:

1. Select Walraven, K-flex and Utility 1 Gal Products need to be ordered in full case quantities
2. Polypro 9' lengths of pipe need to be shipped in full case quantities - cases broken for pick up only
3. Fiber glass insulation is sold in 3' sections / PVC Jacketing sold in 4' sections

RETURN POLICY:

1. No goods shall be returned to Kasa Industries for credit without prior written consent of Kasa Industries.
2. Kasa Industries reserves the right to levy a minimum handling and re-stocking charge of 20%
3. All returned goods shall be sent prepaid unless Kasa Industries agrees
4. All goods will be subject to inspection upon return to verify they are in resaleable condition. Credit will not be issued for any item that fails inspection upon return
5. Fiberglass and factory only material are noncancelable/nonreturnable

DATE: 9/2023

CALEFACTIO

- Available in sizes ranging from 2 to 74 gallons - mounted in-line or on base.
- Steel shell designed to resist high pressures, making installations safer.
- EPDM bladder separates air from water while preventing water infiltration and saving space and energy.
- These devices are suitable for heating and cooling installations and are also compatible with glycol.

Calefactio's service valves kit is designed for tankless water heaters under 2 gallons.

The expansion tank function is to absorb the increased volume of water which results from the heating process, thereby keeping the system's pressure below the relief valve setting. It also acts as a water hammer or shock absorber to absorb a sudden change in fluid velocity after the sudden closing of a faucet.

Expansion Tanks *Heating & Potable*

Benefits

- Filling valve - System filling easier with 3-way valve and filling kit for the GMP6 and GMP18
- Prevent major floods
- No direct connection to potable water
- Connected with flexible braided hose
- Provides leak detection
- By-pass valve
- Easy maintenance
- Suggested self priming pump
- Optional alarm Kit available

CS2

Compact Condensate Neutralizer w/ Time Indicator (12 Months)

- Easy to Install
- Wall supports included
- Contained media
- No disconnect required
- No by-pass needed
- Connects to hard pipe
- Long-life HD tank/cover

CSNP20

Condensate Neutralizer with Pump and Time Indicator (12 Months)

- All-in-one
- Preserve drains from corroding
- Compact
- Designed to prevent fires and short circuit
- AC inlet port included
- Easy maintenance
- Non return valve

CALEFACTIO

ΔP (DELTA P) PUMP FLANGE

THE ΔP PUMP FLANGE ALLOWS A QUICK OVERVIEW OF THE SYSTEM

Benefits

- ▶ Allows drainage on the system side or on the pump side
- ▶ Fits all high velocity pumps
- ▶ Reduce the number of joints to save you time and money
- ▶ Ensures a great seal due to its forged brass bod

Multiple options available:

- ▶ Sold as a kit or unit
- ▶ Kits/Units sold with or without drain
- ▶ Connection Options: NPT, SWEAT, PRESS, PEX F1960
- ▶ Sizes: ¾", 1", 1 ¼", 1 ½" or 2"

PRESSURE GAGE (Sold Separately)

0-30 PSI pressure gage ½" (#GAGE0-30BOTTOM)

0-100 PSI pressure gage ½" (#GAGE0-100BOTTOM)

Kit Includes:

- ▶ 1 flange valve with drain
- ▶ 1 flange valve without drain
- ▶ 4 gaskets
- ▶ 4 nuts and 4 bolts

Unit Includes:

- ▶ 1 flange valve with or without drain
- ▶ 1 gaskets, 2 nuts and 2 bolts

CAL-X-TRACT™

AIR & DIRT SEPARATORS

Impurities in the water caused by the presence of air, sand, cement, or other contaminants are common and can damage all system components. Calefactio's Cal-X-Tract range of air and dirt separators features stainless steel brush-type coalescing media designed to allow air bubbles and dirt particles to cling to it while maintaining a constant flow of fluid. This technology reduces the risk of corrosion and damage that could be caused by impurities in the system.

CALBALANCE

Hydraulic separators are used to isolate primary circuits (boiler) from secondary circuits (application/heat transmitter) as much for flow than for charge loss.

Benefits:

- ▶ ½" FNPT thermometer port
- ▶ No need to install automatic air vent and air & dirt separator
- ▶ Easy to install and maintenance
- ▶ Minimize energy consumption
- ▶ Magnet including drain valve
- ▶ Coalescing media

duravent™

PolyPro

PolyPro is a polypropylene vent pipe for use with ANSI Category II and IV gas-burning appliances, including high efficiency water heaters, condensing boilers and warm air furnaces.

- Can be cut to desired length.
- Gasketed connections have a precise, tight seal and does not require installation lubricant.
- Higher sustained operating temperatures than PVC/CPVC.
- Lightweight and easy to install.
- Terminations remain icicle free in freezing weather.

Listed with the appliance in the USA, check with appliance manufacturer. Intertek / ETL listed to ULC-S636 Listed as a Class IIA, IIB, and IIC vent system

FasNSeal

FasNSeal and FasNSeal Flex is for use with natural gas or propane Categories II, III and IV appliances or Canada's Type BH Gas Vent Systems, having a maximum rated operating temperature of 480°F.

UL Listed to UL 1738 and ULC S636

Type B Gas Vent

DuraVent BV round vent pipe is a Listed Type B gas vent pipe. Its adjustable fittings and standard short lengths eliminate all cutting, fitting and special engineering. An improved joint design provides for a rapid and secure connection in seconds. The use of our "DuraLock" feature gives installers the option of engaging this DuraTab instead of using sheet metal screws

UL Listed to UL 441

DuraFlex

Flexible stainless steel relining for masonry chimneys
UL 1777 and ULC S635

DuraFlex Pro: Listed to UL 1777 and ULC S635 (MH45609).

DuraFlex 316 & 304: Listed to UL 1777 and ULC S635 (MH45609).

duravent™

DuraTech 5"-8"

DuraTech 5"-8" is a double-wall, all-fuel chimney system for use with wood stoves, fireplaces, furnaces, boilers, ranges, water heaters, or other appliances fueled by wood, oil, coal, or gas, and zero-clearance fireplaces that are factory-built.

UL 103 HT and ULC S604 System

DuraTech 10"-24"

10"-24" large diameter DuraTech is a 1" wall, all-fuel chimney system for use with wood stoves, fireplaces, furnaces, boilers, ranges, water heaters, or other appliances fueled by wood, oil, coal, or gas.

UL 103 System 14" < Factory

DuraBlack

Single-wall interior stovepipe for connecting wood stoves to manufactured chimney.

DuraBlack:
Materials and Construction
 24-gauge steel construction.
 Lock-seamed. Painted black.

DuraBlack Stainless Steel:
Materials and Construction
 .020" 430 stainless steel

DVL

Double-wall interior stovepipe for connecting wood stoves to manufactured chimney.

Materials and Construction
 .016" stainless steel inner wall.
 .018" galvanized outer, painted black.

c-UL-us listed to ULC S641 (MH14089).

Energy Saving

Ideal for replacement

Model	Application	Pump Body	Additional Feature	Technical Data
Evosta 2	Heating System	Cast Iron		<p>Operating range: 0.8 - 15.1 gpm with head up to 18 ft. Pumped liquid temperature range: from +14 °F (-10°C) to +230 °F (110°C). Working pressure: 145 psi 10 bar (1000 kPa). Insulation class: F. Installation: with horizontal motor axis. Standard power input: single-phase 1 x 110-127 V~ 60 Hz. Pumped liquid: Clean, free of solids and mineral oils, non-viscous, chemically neutral, with properties similar to water (glycol max 30%).</p>

Evosta San	Hot Water Circulating	Stainless Steel	Drinking Water Approved	

EVOSTA 2

Electronic Circulators

The circulator has a built-in electronic device that detects the changes demanded by the system, and automatically adapts the circulator performance accordingly, always ensuring optimum efficiency and minimum energy consumption

IPX5 Protection

This certified degree of protection prevents the infiltration of water in the mechanics and, most importantly, in the electronics: faults are reduced to a minimum for absolute peace of mind.

Steel Motor Casing

Made with stainless steel grade AISI 304 ensuring maximum comfort and long life, even in the case of cooling applications.

Airvent Plug

Designed with front electronics and breather plug providing access to the shaft in case of seizure.
 Evosta 2: easier maintenance for greater peace of mind.

Calcium Removal Cartridge

The Evosta calcium removal system keeps the motor shaft in perfect condition, preventing the normal formation of limescale generally caused by air and water residue.

User Interface

The new user interface with sequential button makes easier the setting..with a shells finger

Additional Features and full product overview

KASA Specialties

Fiber Glass Pipe Insulation, PVC Jacketing

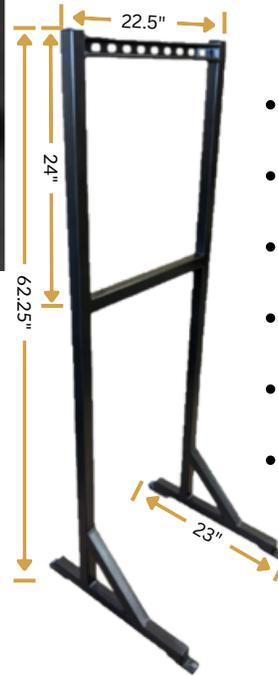

Suitable for installation over hot, cold, concealed and exposed piping systems with operating temperatures up to 850°F (454°C). Weather-protective jacketing is required for outdoor applications. Pipes operating below ambient temperatures require all joints to be sealed with the factory-applied, self-seal lap and butt strips.

Fiberglass: sold in 3' sections **Jacketing:** sold in 4' sections

Fittings available: Tees, 45° and 90°

Mult-Function Boiler Stand

**No wall?
No Problem!**

- Large, Stable footprint
- Eliminates need to use or build a wall
- Appliance easily hung with strut-nut
- Welded steel construction
- Durable hammer finish
- lower cross support for stability

JABS-1

Fiber Glass Pipe Insulation Boiler Stands + Cable Tie Tools + Bucket Organizers

ProZip Cable Tie System replaces conventional zip ties, allowing you to bundle cables without having to have various lengths. **Endless Applications!**

- ProZip**
- Fast, Easy, Economical
 - Flexible sizing: 1/2"-50"
 - Tightens Strip AND Cuts Flush
 - No More Waste/No More Cleanup
 - Reduces Cable Tie Inventory
 - 55 lb Tensile Strength

Kits includes:

Bucket Organizers

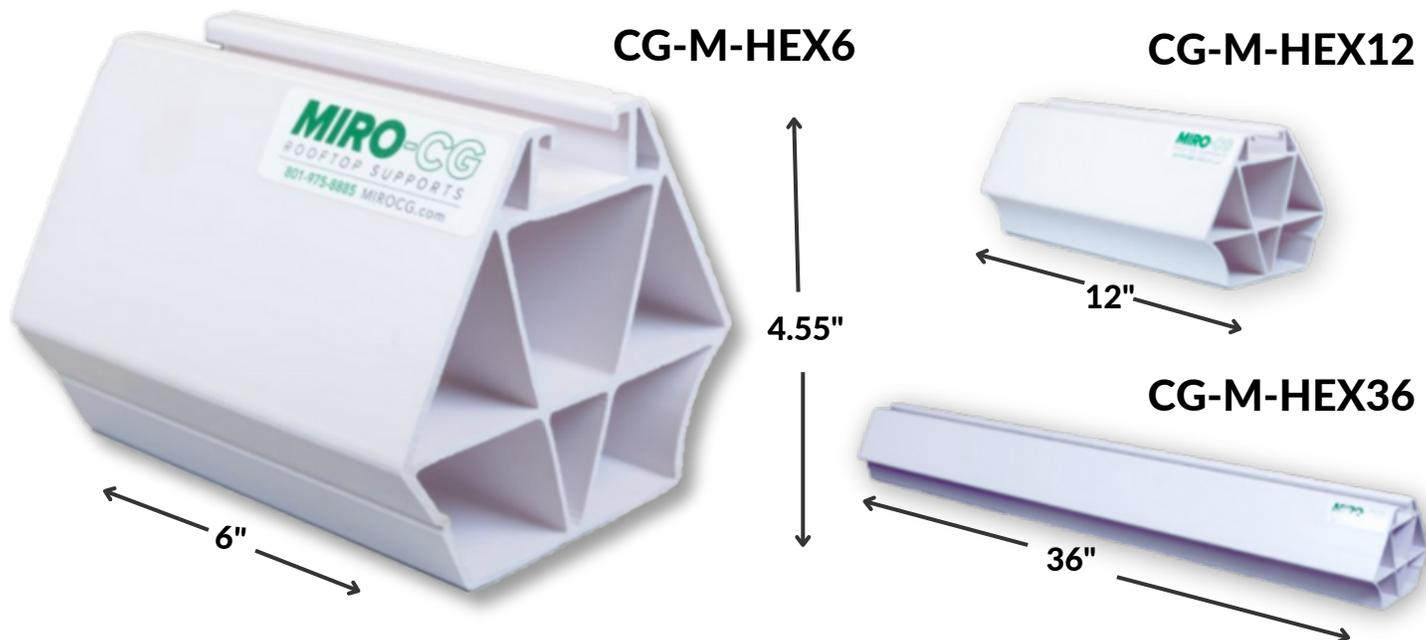

- 502**
Box Qty: 8
Components:
- (2) 401 Trays (4 1/2")
 - (2) 201 Trays (2 1/2")
 - (1) Lid
 - (1) 5 Gallon Pail

- 26125**
Description: 1/2" + 3/4"
Combo Nipple Tray
Box Qty: 5

MIRO-CG

ROOF TOP SUPPORTS

3 OPTIONS IN 1 ROOF TOP SUPPORT

Strut

Attach clamps & fittings for conduit & other applications

Pipe Seat

Place up to 3" pipe directly on the pipe saddle

Drill Side

Use the drill guide to attached your own accessories

PRODUCT DESCRIPTION:

The M-Hex rooftop pipe support is designed to support a variety of rooftop piping and conduit. The unique design provides 3 options for use: the strut side can be used to attach clamps & fittings for conduit & other applications, the pipe seat side can be used to place up to a 3" pipe directly on the pipe saddle, and the drill side allows attachment of other accessories.

Material: PVC

Size: 4.5" H, 5.2" W | Available in 36", 12", or 6" length

Spacing: Supports should not exceed 10' on center.

Warranty: 2 year limited warranty.

SUGGESTED ROOFTOP LOADING:

6": 58 lbs at 3 PSI applied to surface. Max product load = 300 lbs.

12": 117 lbs at 3 PSI applied to surface. Max product load = 600 lbs.

36": 351 lbs at 3 PSI applied to surface. Max product load = 800 lbs.

K-FLEX

K-Flex Insul-Tube

K-FLEX INSUL-TUBE is an NBR/PVC based closed cell, flexible elastomeric foam insulation. It is environmentally friendly as it is free of CFCs, HFCs, HCFCs, PBDEs, formaldehyde and fibers. An EPA-registered antimicrobial agent is incorporated into the product providing additional protection against mold, fungal and bacterial growth. It is UL GREENGUARD Gold Certified for low VOC emissions. The product's key physical properties are approved by Factory Mutual.

K-Flex PE

K-FLEX PE is a polyethylene based closed cell, flexible foam insulation meeting the requirements of ASTM C1427. It is environmentally-friendly as it is free of CFCs, HFCs, HCFCs, PBDEs, formaldehyde and fibers. K-FLEX PE contains no halogens. K-FLEX PE has excellent thermal, physical, and chemical resistance properties as exhibited by its low thermal conductivity and low water absorption and water vapor permeability values.

K-Flex Insul-Lock DS

K-FLEX INSUL-LOCK DS (DoubleSeal) is an NBR/PVC-based closed cell, flexible elastomeric foam insulation. It is pre-slit with a factory-applied pressure sensitive modified acrylic adhesive with scrim reinforcement on the seam surface and a flexible PVC overlap tape with acrylic adhesive for doubled seam security.

K-Flex Insul-Sheet

K-FLEX INSUL-SHEET is an NBR/PVC based closed cell, flexible elastomeric foam insulation. It is environmentally-friendly as it is free of CFCs, HFCs, HCFCs, PBDEs, formaldehyde and fibers. An EPA registered antimicrobial agent is incorporated into the product providing additional protection against mold, fungal and bacterial growth. It is UL GREENGUARD Gold Certified for low VOC emissions.

K-Flex Titan

K-FLEX TITAN is a flexible coextruded jacketed composite material applied to K-FLEX NBR/ PVC tubular insulation. It is a polymeric jacketed material that offers excellent flexibility, abrasion and weather resistance, making it ideal for outdoor applications.

K-FLEX

Seam Tape

Flexible PVC strip tape with an aggressive acrylic adhesive and a **polyethylene** terephthalate (PET) release liner. Designed as a complementary product to K-FLEX Seam-Seal tubing for sealing flexible elastomeric joints.

Titan Tape

Designed as a complementary product to K-FLEX TITAN for sealing longitudinal seams and butt joints.

- Can be torn laterally
- Ensures airtight layer

Duct Tape

High Quality PE Duct Tape, adopts high grade fabric cloth with color polyethylene covering, coats improved synthetic rubber resin adhesive coated.

DT Tape-6 **DT Tape-9**
6 mil, 1.89" W x 180' 9 mil, 1.89" W x 180'

Cork Tape

Cork Tape is a cork-filled (55% by volume), rubber-based mastic material that has a grainy, rubber-like consistency.

Aluminum Tape

Has a pliable and malleable foil backing. It is coated with a cold weather solvent acrylic adhesive, protected by an easy-release silicone paper. The 2 mil thickness provides excellent tensile strength, while still easily conforming to irregular surfaces.

FSKT Tape

FOIL SCRIM KRAFT TAPE
High tensile strength aluminum foil, combined with cold weather acrylic water based adhesive, protected by an easy-release silicone release paper. Cold Weather version (low temperatures).

FTU Tape

ALUMINUM FOIL TAPE - UL181A & B-FX LISTED
High tensile strength aluminum foil, combined with cold weather acrylic water based adhesive, protected by an easy-release silicone release paper. Cold Weather version (low temperatures).

Foam Tape

K-FLEX Foam Tape is an NBR/PVC-based closed cell, flexible elastomeric foam insulation tape with a factory-applied pressure sensitive adhesive that adheres firmly and forms a long-lasting bond. It is environmentally-friendly as it is free of CFCs, HFCs, HCFCs, PBDEs, formaldehyde and fibers. An EPA registered antimicrobial agent is incorporated into the product providing additional protection against mold, fungal and bacterial growth.

K-flex Accesories

620 Adhesive

Black air drying solvent-based neoprene contact adhesive. Excellent for joining seams and butt joints of elastomeric pipe and sheet insulation.

GP250-500-580

245-03P

NFM-TT

EDGE™ 2.0

ESS32-PFH-580 PRESSURE/FLOW HYBRID REGULATOR

Newly developed dual stage orifice technology allows one regulator to control both pressure and flow allowing complete control of nitrogen for purging, brazing and high pressure testing.

Designed to fit your swimming pool, spa or hot tub. Constructed of stainless steel or titanium option - suitable for salt water applications

STANDARD FEATURES

- Constructed of high quality corrosion resistant stainless steel (AISI 316)
- Rolled formed to shape and then precision welded
- Specially designed built in flow turbulators to assure maximum heat exchange
- Leak tested to assure that they are totally functional
- Compact in size and require a minimum installation space - light weight
- Perfect for all types of swimming pools, spas and hot tubs
- Equipped with stainless steel holding brackets

UTILITY

Original

No-Freeze, the most trusted name in non-toxic anti-freeze. A chemically balanced inhibited solution engineered to give worry-free protection. Provides expansion point protection to -100°F. Systems will flow to -61°F.

Accepted for use in solar systems

Can be mix with similar brands

Polar

A heavy duty non-toxic anti-freeze designed for regions that experience extreme weather conditions. It is fully inhibited against metal corrosion and is safe, odorless and tasteless

Can be mix with similar brands

*NSF Suitable for incidental food contact such as should be used in breweries, distilleries, wineries, chillers and geothermal systems

Most Trusted Name in Non-Toxic Antifreeze

NO-FREEZE Antifreeze

AL Safe Polar

Uniquely designed formula blended with customized additives for an aluminum safe solution

Can be mix with similar brands

Super Polar

The most concentrated inhibited solution. Easy to follow mixing instructions available for total non-toxic protection against all types of weather and conditions

Can be mix with similar brands

RV Guard

Specifically engineered for recreational vehicles of all types, including boats. All of the ingredients are non-toxic, nonflammable and it is inhibited against metal corrosion.

ABOUT US

Kasa Industries was established with a single mission, "To remove the logistical and transactional obstacles that our customers were facing". Since 1990, Our Agency has not wavered from our original mission and have been providing our customers industry leading brands with same day/next day availability for all products we offer.

Orders placed utilizing our JAK-Pak program allow you the ability to place an order across 15+ product lines under one purchase order allowing you to reduce redundant transactional costs. In addition, there are no minimum order requirements, broken box charges and the FFA is only \$1500 net.

Kasa Industries is proud to stock the following lines in our 25,000 sq foot facility located here in Manchester NH.
